WORK EXPERIENCE

Sancho Hospital Pvt. Ltd. – Hetauda, Nepal

City: Hetauda | **Country:** Nepal

Pharmacy Department Manager

[9 Nov 2022 – Current]

Sancho Hospital Pvt. Ltd has been providing services to the general public for 6 years, where I have several responsibilities, including store management, staff handling, keeping records of medicine, maintaining proper relationships with the drug distributors, and overall management of a pharmacy.

Madan Bhandari Accademy of Health Sciences – Hetauda, Nepal

City: Hetauda | **Country:** Nepal

Hospital pharmacist

[10 Jan 2024 – Current]

Madan Bhandari Academy of Health Sciences (Hetauda Hospital) is a government hospital in Nepal where I perform all the responsibilities of a hospital pharmacist, including dispensing, counseling, store management, pharmacovigilance research, maintaining stock records, patient handling, computerized billing, and solving overall problems that arise in pharmacy.

PUBLICATIONS

[2025]

Establishment of a Drug Information Unit and Pharmacovigilance Cell in a Provincial Hospital of Nepal: Implementation of the 2015 Hospital Pharmacy Service Guidelines The Hospital Pharmacy Service Guideline 2015 of Nepal aims to promote accessible and quality pharmaceutical services from the hospital. The Constitution of Nepal effectively grants all the rights to information and health services by providing accessible and quality services. Right to health further explains that everyone has the right to get information about their medical treatments, including treatment therapy, choice, possible side effects, and long-term effects.With the help of this guideline, we were able to establish a drug information unit and a Pharmacovigilance cell in the Provincial Hospital of Nepal.

PROJECTS

[23 Jan 2022 – 4 Jun 2022]

KAP among pharmacy Practitioners Regarding Inhalation Techniques A descriptive cross-sectional and questionnaire-based study was conducted among pharmacy professionals working in community pharmacies in Chitwan District to explore the knowledge of community pharmacy practitioners on the use of inhalers and to determine the attitudes of pharmacy professionals towards dispensing inhalers.
